Subject

Info and reporting systems

Details of enquiry

Question 1

Do you have a data warehouse or other system which you are able to extract data from?

Question 2

How many Whole Time Equivalent (WTEs) manage and report from your system, including the agenda for change pay bands for these staff?

Question 3

If your reporting system is separate from your clinical system (ie. A Data warehouse) how long did it take to develop?

Question 4

Are clinical staff within the organisation furnished with caseload management reporting? If so what is the nature of these reports and how is this data presented?

Question 5

How often is the caseload management information updated?

Question 6

If you do have caseload management dashboards/portals do you have any measurable outcomes (ie. Number of suicides reduced)

Question 7

Do the caseload management dashboards/portals include data from your EPR?

Response Sent

1. Yes, the Trust has a Data Warehouse.

3. Yes, we report from data warehouse. It took nearly 6 months to develop.
4. The Patient system allows clinical staff to manage their caseload within the application. Reports are also setup in reporting services.
5. It is built in the application.
6. We don't have caseload management dashboard.
7. Please refer to our reply to 6. Above.
