

Freedom of Information Act 2000 disclosure log entry

Reference

19-20335

Date response sent

12/03/20

Subject

GIDS Referrals from Ireland 2019

Details of enquiry

Under Freedom of Information legislation please may I have a breakdown by sex and age of the number of children referred from Ireland (south, not including Northern Ireland) to the Tavistock GIDS service (either to the UK or to be seen by a Tavistock representative in Ireland) in 2019.

Response sent

In 2019, 34 young people assigned female at birth and 8 young people assigned male at birth were referred to our service from the Republic of Ireland.

Of these, 21 were younger than 15 years of age at referral, and 21 were 15 years old or older.

Due to the small numbers involved, splitting the data any further in terms of age at referral and sex assigned at birth risks the data becoming patient-identifiable.
