

Freedom of Information Act 2000 disclosure log entry

Reference

23-24210

Date response sent

31/08/23

Subject

Confirmation that a DSCR is in place.

Details of enquiry

Does the Trust have a DSCR in place and if not are there plans to implement one as per government policy?

Response sent

Please note that the Tavistock and Portman NHS Foundation is a small specialist mental health Trust which provides outpatient psychological services only. The Trust is not a hospital and does not provide Social Care Services, nor Acute Services, and does not have inpatient wards nor an A&E department.

You have requested information on whether the Trust has a DSCR in place, ie a Digital Social Care Record (DSCR), which provides for the digital recording of care information within a residential or other social care setting, that is received by an individual patient.

Your request for information is not applicable to our Trust as we do not offer Social Care Services to which a DSCR system would apply.
