Date sent

20/02/2019

Subject

GIDS Clinician Resignations Since 2017

Details of enquiry

“REQUEST to the Gender Identity Development Service, Tavistock and Portman NHS Foundation Trust.

QUESTION: How many clinicians have resigned from the service since the beginning of 2017 out of the total number employed. Is this more than in previous years?”

Response Sent

Please see below average number of staff employed in each year (average taken from staff in post across January to December of that year) and total number of clinical leavers in that financial year. Average number of staff employed includes all clinical and non-clinical disciplines on payroll. This information is taken from 2017 and 2018 against the previous two years. Please note that numbers of staff leaving is likely to increase exponentially against staff base as team growth responds to referral rates and therefore runs ahead of natural wastage.

	2015	2016	2017	2018
Average number of staff employed	32	45	75	86
Total clinical leavers in year	2	2	9	9
