Subject

Consultant Teams Information

Details of enquiry

I am writing to ask for the following data for most recent month for which all the specified data is available for the Trust:

1. the number of consultant-led teams, and the number of other teams not led by consultants, that provide patients referred to those teams with elective non-emergency treatment services for physical or mental illnesses and conditions, funded by NHS commissioning bodies.
2. the number of consultants in each of the two groups of teams, measured in full-time equivalents to provide meaningful data where consultants work part-time in a team.
3. a list of the titles of the teams in each of the two groups separately. (The number of consultants in full-time equivalents for each individual team is not requested.)
4. the month and year of the data supplied.

Definitions:

The relevant definitions of the word "consultant" and phrase "consultant-led" are shown below, and are taken from page 29 of the DHSC document "Referral to treatment consultant-led waiting times Rules Suite".

- "Consultant" is defined as "A person contracted by a healthcare provider who has been appointed by a consultant appointment committee. He or she must be a member of a Royal College or Faculty. Consultant-led waiting times exclude non-medical scientists of equivalent standing (to a consultant) within diagnostic departments."
- "Consultant-led" is defined as "A consultant retains overall clinical responsibility for the service, team or treatment. The consultant will not necessarily be physically present for each patient's appointment, but he/she takes overall clinical responsibility for patient care. "

Response Sent

1. The number of consultant-led teams, and the number of other teams not led by consultants, that provide patients referred to those teams with elective non-emergency treatment services for physical or mental illnesses and conditions, funded by NHS commissioning bodies.

The Tavistock and Portman NHS Foundation Trust is a specialist outpatient mental health provider mental health provider organisation. We have no consultant led teams and all of our clinical services are led via a multi-disciplinary model. There are 47 non-consultant led teams.

2. The number of consultants in each of the two groups of teams, measured in full-time equivalents to provide meaningful data where consultants work part-time in a team.

The Tavistock and Portman NHS Foundation Trust is a specialist outpatient mental health provider mental health provider organisation. We have no consultant led teams and all of our clinical services are led via a multi-disciplinary model.

3. a list of the titles of the teams in each of the two groups separately. (The number of consultants in full-time equivalents for each individual team is not requested.)

The Tavistock and Portman NHS Foundation Trust is a specialist outpatient mental health provider mental health provider organisation. We have no consultant led teams and all of our clinical services are led via a multi-disciplinary model.
